Our Service

JINCAIDU committed to providing all kinds of paper products including, sublimation transfer paper, blueprint paper, thermal paper, kraft paper, office paper, color double adhesive tape, self-adhesive label.

Transfer pattern vivid bright, colorful, clear black;

A high transfer ratio in fabric, glass, ceramic, aluminum and iron plate or the like;

The coating is uniform, the ink absorption speed is fast, the quick drying property is good, and the paper deformation is small;

The amount of color released during transfer is large, and the transfer rate is significantly higher than that of similar products on the market, and the transfer rate can reach about 95%;

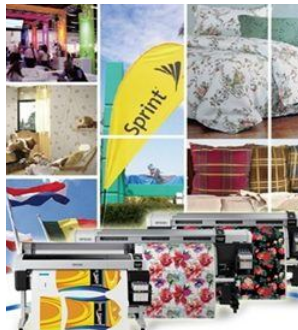

Effect

The transfer pattern is vivid and vibrant, rich in color and black in appearance;
